GLADIOLUS BULBS

AND BULBLETS OF QUALITY

... Grown By ...

Leonard C. Larson

January, 1936

Great care has been taken to keep our stock healthy, true to name, and Thrip-free, as we plant on new ground, dip all bulbs in lye—one can use ordinary concentrated lye to 25 gallons of water—and soak from 8 to 12 hours. This proportion will kill the Thrip, also eggs, in that length of time. I believe it also will not hurt the bulbs as I have used it for over 5 years. It is also good for scab.

I am anxious to have satisfied customers so will refund or replace any stock not true to name.

TERMS

Net cash before shipment, or 25% deposit and balance C. O. D.

10 bulbs sold at 100 rate. 250 at 1000 rate; 1000 at 8 times 100 rate; but minimum item is 10c.

If you require large amounts I should be very happy to quote you special prices or ask for my wholesale list.

DISCOUNTS

As it requires little more expense in packing large orders, I make the following discounts: 5% on orders over \$5.00 and 10% over \$10.00 when cash accompanies order.

SHIPMENT

All orders of \$1.50 and up will be postpaid in U. S. or Canada from this list.

Large orders can be shipped by express at any time. Smaller orders going by parcel post we prefer to send out in early spring.

TIPS

If you have not done so already it will be wise to purchase some naphthalene flakes and place in with your bulbs. Place in bags or containers but cover so as to retain odor. Use an ounce to about 100 bulbs. Leave covered for about two weeks.

Don't hesitate in trying the lye treatments I have mentioned before planting your bulbs.

Order early, by all means, if you contemplate getting glads from me or any other grower. Stock of glads is scarce this season; many growers are getting low on stock at present. Planting stock is much in demand. So, rather than get disappointed, Order Early. Every one will be happy. We are already sold out on several items; hence we are not listing them.

Leonard C. Larson

APPREVIATIONS OR ORIGINATORS: (A) Austin, (E) Ellis, (D) Diener, (Pf.) Pfitzer, (S) Salbach, (K) Kunderd, (F) Fisher.

The bulbs and bulblets are all hand picked thus assuring good size, the bulblets are screened taking small stock out. Good plump solid stock only sent out. We want you to be satisfied.

NOTE: ALL STOCK IS GUARANTEED THRIP FREE

10 bulbs may be had at 100 price and 10 bulbs or bulblets may be had at 8 times the single price, and 100 at 8 times the 10 price, also three bulbs may be had at ten price.

Personally, I believe that a bulb of number 2 or 3 size is the best for all around use. Number one is better for some purposes, while number 4, 5, and 6 give small flowers but make finer bulbs and produce more bulblets as a general rule. Mixed sizes gives longer period of blooming.

ALL BULBS TREATED THIS FALL

Our bulbs have been treated with naphthalene flakes this fall; then they were fumigated with cyanogas twice leaving ten days between fumigations. The Oregon Gladiolus Growers requested that the Dept. of Agriculture makes these rigid treatments in order that the THRIP may be stamped out. In addition all our bulbs will be treated in LYE water. Formula as follows: 1 can ordinary concentrated lye (10 cents) to 25 gallons of water and let soak for 8 hours or longer. No thrip can live in a treatment likes this. In addition we will spray our plants after they get up say 8 or 10 inches; then, again, in two weeks with Black leaf '40. and a small amount of Brown sugar so as to make the spray stick to the plant. Try this and I am sure you will come out with some fine blooms again this season.

I might add that when you sack your bulbs ready for treatment in lye water be sure to get good labels and mark plainly and be sure that the tags do not become submerged in htis as the lye will eat the markings off the tag. I suggest that a string be attached to the sack and the tag let hand over the container.

Corrosive subliment is also good, but be sure and not use metal containers as it eats metal. Use a wooden barrel or crocks.

ALL STOCK OFFERED AND ORDERS ACCEPTED SUBJECT TO PRIOR SALE
